# First Baptist Church Preschool

First Baptist Church Preschool believes preschoolers are active learners who assimilate information at different rates according to their stage of development. We further find them to be literal-minded, which defines the concepts they are able to understand.

For those reasons, we offer them developmentally appropriate activities in learning centers. We strive to enhance our preschoolers' self esteem, develop their sense of independence and establish positive and practical social skills. We consider ourselves a program of ministry and outreach to our children and their families.

Our teachers are well-trained and participate in a continuous program of in-service education including training in the VPK curriculum, benchmarks and assessments. They love children and will guide your child with warmth and compassion.

## Curriculum

First Baptist Church Preschool implements the WEE Learn Curriculum developed by LifeWay Christian Resources. Through this curriculum we seek to develop the whole child according to Luke 2:52 "And Jesus increased in wisdom (mentally), and in stature (physically), and in favor with God (spiritually), and man (socially and emotionally)."
